### Information

#### Management

Buluowan Service Station

#### Recreation Zone

Buluowan Recreation Area

#### Altitude

280Meter

#### Address

MAP

### Phone Number

03-8612521 or 03-8612528

### QR Code

Geographic Code

The bridge is situated at the 176.5K of Central Cross-Island Highway between Zhuilu Cliff and Jiuqudong (Tunnel of Nine Turns). Liwu River has a 90-degree turn right at the spot where Liufang Bridge spans Liwu River Gorge.

Standing on the two-story lookout platform at the west of the bridge, you can see Taroko Gorge. To the east, you will see the mountain walls standing tall on both sides of the gorge. Mountains tower from afar, among which rivers rush along. The view is vastly different from the gorge seen in Swallow Grotto (Yanzikou) and The Tunnel of Nine Turns (Jiuqudong), which resembles the park's emblem(logo) of tall mountains and deep gorges of Taroko National Park.

### Service Facilities

Viewing Deck.

### Traffic Information

#### Bus

1. From Hualien Station, take buses TaiwanTrip (Ubus) 310, or Hualien buses 1133 bound for Tianxiang, or Luoshao-1126 or Lishan-1141, and alight at Lufang Bridge.
